## OBJECTIVE

Junior Full Stack Developer with experience in React.js, Next.js, Node.js, Express, and MongoDB. Strong understanding of front-end and back-end development and RESTful APIs. Currently learning cloud technologies (AWS) and containerization tools such as Docker. Seeking a role to apply my skills in a collaborative, Agile environment.

## EXPERIENCE

**10Pearls - MERN Stack Intern (Remote)** (Sep 2025 – Nov 2025 | 3 Months)

- Developed and optimized full-stack features using React, Node.js, Express, and MongoDB, improving frontend responsiveness and backend API efficiency by 20% through structured component design and clean REST architecture.
- Implemented secure authentication flows (JWT, Google OAuth), cloud integrations (Cloudinary), and wrote 105+ automated test cases, improving code quality and stability by 30%.
- Improved overall system reliability by 15% through proactive debugging, refactoring legacy components, and enforcing clean coding standards within the Agile workflow.
